

# THANON APHITHANAWAT

FULLSTACK & DEVOPS

## ABOUT ME

I'm fullstack developer with low-mid devops, network, cloud system, security and necessary skills. To start the project from zero to the production with only my self.

I have developed several projects with php, javascript and dart.

I'm a big fan of flutter. I have experience with flutter for last 3 year, javascript 5 year and 3 years with php in the past.
